Hi,

I'm Dean, an Art Director from Scotland, I have just relocated to Portsmouth and I'm loving it :). I am looking forward to developing further my career as a creative and would love the chance to work creatively with you, meet your team and spice up my book.

For the last year I have been working freelance in Madrid on some nice projects including: t-shirt design, website design, branding, painting commissions and commercial interior design (which is new for me but real fun).

Before going to Spain I worked as a Senior Art Director for 5 years in a great ad agency in Glasgow, Clayton Graham Communications, where I worked with clients including: Bank of Scotland, The Herald, Evening Times, Audi, Black & Lizars, Rentokil and Sprayway. My main role was providing creative solutions, generating ideas, working on pitches and bringing added value to the client's brief.
